April 11, 91
Dated..... 19 .

Dear Prof. Lederberg

The city of Calcutta is planning a year long birth centenary celebration of late Prof J B S Haldane in 1991-92. The committee has worked out a number of programmes during the year as a tribute to Prof Haldane. The programme will include exhibition, professional seminar, publication of books, seminar on 'Origin of Life' to be participated by school students at the district, state and national level.

On this occasion Birla Industrial & Technological Museum will be organising an exhibition on the 'Life and Works of J B S Haldane' from 5th November, 1991. There is a plan to bring out a commemorative volume to honour the memory of Prof Haldane. The publication will contain four sections namely

1. Haldane and Science
2. Haldane and Society
3. In memorium - recollections of Haldane
4. Important scientific writings of Haldane

I shall be extremely grateful if you kindly contribute an article for the section 'Haldane and Society' and help us in providing the names and addresses of persons who had association with Prof Haldane and can be approached to contribute articles for this volume. The article has to be within 3000 words. We are also interested in getting visual materials for our exhibition. Could you kindly help us with photo, document, letter etc ?

Prof. Soshua Lederberg
